

$1,2,3\text{H}$ Colloquium

Summer Semester 2023

Mondays, 2:30 – 3:30 pm

KI. HS (room 015)
Johannisallee 29 – 04103 Leipzig

-
- 17.04.2023 **Prof. Siegfried Waldvogel**
Johannes-Gutenberg-Universität Mainz
Electrosynthesis – from versatility to complex structures
- 26.06.2023 **Dr. Barak Hirshberg**
Tel Aviv University (Israel)
Algorithms for long timescales and quantum statistics in molecular dynamics simulations
- 28.08.2023 **Prof. Evan Bieske** – *focused lecture without $1,2,3\text{H}$ internal session*
The University of Melbourne (Australia)
Spectroscopically probing interactions of H_2 , D_2 and HD with halide anions and metal cations – a molecular view of hydrogen storage

The public lectures of the $1,2,3\text{H}$ Colloquium are streamed.
